

**Amendments To Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. - 2. (canceled)

3. (Currently Amended) A porous polymeric wick for use in connection with an air freshening device consisting essentially of:

a high density polyethylene wicking material having a void volume ratio on the order of between about 30 to about 35% and having an average pore size in the range of from about 3 to 30 microns, wherein a combination of said pore sizes and said void volume ratio are selected such that (i) a vaporizable material to be transported by the wick material does not leak from the wick material when the wick material is inverted and (ii) a vaporizable material to be transported by the wick material is delivered via volitization from ~~transfers through~~ said high density polyethylene wicking material at a rate of about 30 to about 70 mg per hour.

4. - 11. (canceled)
